

Safeguarding and Welfare Requirement: Child Protection.

Providers must have and implement a policy and procedure to safeguard children.

HOOK VILLAGE NURSERY Safeguarding Children and Child Protection Policy 2025

Including managing allegations of abuse against a member of staff and Prevent of Duty (Extremism, Radicalism and British Values)

Policy Statement

Hook Village Nursery will work with children, parents and the community to ensure the rights and safety of children and to give them the very best start in life. Our Safeguarding policy is based on the three key commitments of the Pre-school Learning Alliance Safeguarding Children policy.

EYFS Key Themes and Commitments

A Unique Child	Positive Relationships	Enabling Environments	Learning and Development
----------------	------------------------	-----------------------	--------------------------

Characteristics of Effective Learning

Playing and Exploring Engagement	Active Learning Motivation	Creating and Thinking Critically - Thinking
----------------------------------	----------------------------	---

Procedures

We carry out the following procedures to ensure we meet the three key commitments of the Pre-school Learning Alliance Safeguarding Children Policy.

If you have concerns about a child; general advice 0845 603 5620 (Hampshire Children's Services 24hr) or immediate danger; 999

Key commitment 1

Hook Village Nursery is committed to building a 'culture of safety' in which children are protected from abuse and harm in all areas of its service delivery.

Staff and volunteers

Our designated person (a member of staff) who co-ordinates child protection issues is:

Melanie Copage – Designated Safeguarding Lead

Jess Murrell – Deputy Designated Safeguarding Lead

Our designated officer (a committee member) who oversees this work is:

Karyn Reid – Chairperson

- We ensure all staff are trained to understand our safeguarding policies and procedures and that parents are aware of them too.
- All staff have an up-to-date knowledge of safeguarding issues.
- We provide adequate and appropriate staffing resources to meet the needs of children.
- Applicants for posts within the setting are clearly informed that the positions are exempt from the Rehabilitation of Offenders Act 1974.
- Candidates are informed of the need to carry out 'enhanced disclosure' checks with the Disclosure and Barring Service (DBS) before posts can be confirmed.
- Where applicants are rejected because of information that has been disclosed, applicants have the right to challenge incorrect information.
- All permanent applicants for work within the Nursery will be interviewed before an appointment is made and will be asked to provide at least two references. They will also need to provide confirmation of their right to work in the UK.

- All permanent appointments will be subject to a six month probationary period and will not be confirmed unless the Nursery is confident that the applicant can be safely entrusted with the children.
- We abide by Ofsted requirements in respect of references and Disclosure and Barring Service (and Criminal Records Bureau – CRB) checks for staff and volunteers, to ensure that no disqualified person or unsuitable person works at the setting or has access to the children.
- Volunteers and students do not work unsupervised.
- We inform all staff that they are expected to disclose any convictions, cautions, court orders or reprimands and warnings which may affect their suitability to work with children, whether received before or during their employment with us.
- We record information about staff qualifications and the identity checks and vetting processes that have been completed including:
 - The Disclosure and Barring Service reference number
 - The date the disclosure was obtained; and
 - Details of whom attained it.
- We abide by the Protection of Vulnerable Groups Act (2006) requirements in respect of any person who is dismissed from our employment, or resigns in circumstances that would otherwise have led to dismissal for reasons of child protection concern.
- We have procedures for recording the details of visitors to the setting.
- We take security steps to ensure that we have control over who comes into the setting so that no unauthorised person has unsupervised access to the children.
- We take steps to ensure children are not photographed or filmed on video for any other purpose than to record their development or their participation in events organised by us. Parents sign a consent form and have access to records holding visual images of their child.
- We will seek consent from the parent/carer of a child and from staff and other adults before taking and publishing photographs or videos that contain images that are sufficiently detailed to identify the individual in nursery publications, printed media or on electronic publications.
- We will not seek consent for photos where you would not be able to identify the individual.
- We will seek consent for the period the child remains registered with us and, unless we have specific written permission we will remove photographs after a child (or member of staff) appearing in them leaves the nursery or if consent is withdrawn.
- Photographs will only be taken on nursery owned equipment and stored on the nursery network. No images of children will be taken or stored on privately owned equipment by staff members.

Disqualification under the childcare act

The Childcare Act of 2006 was put in place to prevent adults who have been cautioned or convicted of a number of specific offences from working within childcare.

We will check for disqualification under the Childcare Act as part of our safer recruitment processes for any offences committed by staff members or volunteers.

Key commitment 2

Hook Village Nursery is committed to responding promptly and appropriately to all incidents or concerns of abuse that may occur and to work with statutory agencies in accordance with the procedures that are set down in 'What to do if you're worried a child is being abused' (www.gov.uk 2015)

Responding to suspicions of abuse

- We acknowledge that abuse of children can take different forms – physical, emotional and sexual as well as neglect.
- When children are suffering from physical, sexual or emotional abuse, or may be experiencing neglect, this may be demonstrated through:
 - Significant changes in behaviour;
 - Deterioration in their general well being;
 - Their comments which may give cause for concern, or the things they say (direct or indirect disclosure);
 - Changes in their appearance, their behaviour or their play;
 - Unexplained bruising, marks or signs of possible abuse or neglect; and
 - Any reason to suspect neglect or abuse outside the setting.
- We take into account factors affecting parental capacity, such as social exclusion, domestic violence, parent's drug or alcohol abuse, mental or physical illness or parent's learning disability.
- We are aware of other factors that affect children's vulnerability such as abuse of disabled children, fabricated or induced illness, child abuse linked to beliefs in spirit possession, sexual exploitation of children such as through internet abuse and Female Genital Mutilation that may affect or may have affected children and young people using our provision.
- We also make ourselves aware that some children and young people are affected by gang activity, by complex, multiple or organised abuse, through forced marriage or honour based violence or maybe victims of child trafficking. While this may be less likely to affect young children in our care we may become aware of any of these factors affecting older children and young people who we may come into contact with.
- We actively protect children and teach them to value British Values by recognising the valuing the universal uniqueness of all individuals and we are mindful to instil learning and resilience to protect children against the development of extremist and radicalised thinking and behaviour.
- Where we believe a child in our care or known to us may be affected by any of these factors we follow the procedure for reporting child protection concerns.
- Where such evidence is apparent, the child's key person makes a dated record of the details of the concern and discusses what to do with the setting's Leader or is acting as the 'designated person'. The information is stored on the child's personal file.
- We refer concerns to the local authority children's social care department and co-operate fully in any subsequent investigation. NB in some cases this may mean the Police or another agency identified by the Local Safeguarding Partners.
- We take care not to influence the outcome either through the way we speak to children or by asking questions of children.
- We take account of the need to protect young people aged 16-19 as defined by the Children Act 1989. This may include students or school children on work placement, young employees or young parents. Where abuse is suspected we follow the procedure for reporting any other child protection concerns. The views of the young person will always be taken into account, but the setting may override the young person's refusal to consent to share information if it feels that it is necessary to prevent a crime from being committed or intervene where one may have been or to prevent harm to a child or adult. Sharing confidential information without consent is done only where not sharing it could be worse than the outcome of having shared it.

Recording suspicions of abuse and disclosures

- Where a child makes comments to a member of staff that gives cause for concern (disclosure), or a member of staff observes signs or signals that gives cause for concern, such as significant changes in behaviour; deterioration in general well-being, unexplained bruising, marks or signs of possible abuse or neglect, that a member of staff:
 - Listens to the child, offers reassurance and gives assurance that he or she will take action; (the child will be helped to understand that they are valued and respected and not a fault or to blame.)
 - Does not question the child; Use TED (Tell, Explain, Describe)

- Makes a written record that forms an objective record of the observation or disclosure that includes;
 - The date and time of the observation or the disclosure;
 - The exact words spoken by the child, as far as possible;
 - Describing objectively the child's behaviour / appearance without comment, judgement, interpretation or speculation;
 - The name of the person to whom the concern was reported, with date and time;
 - The names of any other person present at the time;
 - The name, age and address of the child.
- These records are signed and dated and kept in a confidential safeguarding file which is kept secure and confidential with restricted access for authorised personnel only – the Nursery Manager and Chairperson.
- Where the Local Safeguarding Partners stipulates the process for recording and sharing concerns, we include those procedures alongside this procedure and follow the steps set down by the Local Safeguarding Partners.

Making a referral to the local authority social care team

- The Pre-school Learning Alliance's publication Safeguarding Children contains procedures for making a referral to the local children's social care team, as well as a template form for recording concerns and make a referral. This is based on 'What to do if you are worried a child is being abused' (www.gov.uk 2015).
- We keep a copy of this document alongside procedures set down by our Local Safeguarding Partners

Informing parents

- Parents are normally the first point of contact. We discuss concerns with parents to gain their view of events unless we feel this may put the child in greater danger.
- We inform parents where we make a record of concerns in their child's files and that we also make a note of any discussion we have with them regarding a concern.
- If a suspicion of abuse warrants referral to social care, parents are informed at the same time that the referral is made, except where the guidance of the Local Safeguarding Partners does not allow this, for example, where it is believed that the child may be placed in greater danger. This will usually be the case where the parent is the likely abuser. In these cases the social worker will inform parents.
- If parents are unable to allay any legitimate anxieties that the Nursery may have then these matters will be notified to Social services.
- In exceptional circumstances, as outlined above, Social services will be the first point of reference or in cases where the Nursery consider the child to be in danger or at risk from harm the police will be called for immediate assistance.

Liaison with other agencies

- We work within the Hampshire Safeguarding Children Partnership guidelines.
- We have a copy of 'What to do if you're worried a child is being abused' for parents and staff and all staff are familiar with what to do if they have concerns.
- We have procedures for contacting the local authority on child protection issues, including maintaining a list of names, addresses and telephone numbers of social workers. This is to ensure that it is easy, in any emergency, for the setting and social services to work well together.
- We notify the registration authority (Ofsted) of any incident or accident and any changes in our arrangements which may affect the well-being of children or where an allegation of abuse is made against a member of staff as soon as reasonably possible, but within 14 days.
- Contact details for the local National Society for the Prevention of Cruelty to Children (NSPCC) are also kept.

Allegations against staff

- We ensure that all parents know how to complain about the behaviour or actions of staff or volunteers within the setting, or anyone living or working on the premises occupied by the setting, which may include an allegation of abuse.
- We respond to any inappropriate behaviour displayed by members of staff or any other person working with the children, which includes:
 - Inappropriate sexual comments
 - Excessive one-to-one attention beyond the requirements of their usual role and responsibilities or inappropriate sharing of images.
- We follow the guidance of the Hampshire Safeguarding Children Partnership when responding to any complaint that a member of staff, or volunteer within the setting, or anyone living or working on the premises occupied by the setting, has abused a child.
- We respond to any disclosure by children or staff that abuse by a member of staff or volunteer within the setting, or anyone living or working on the premises occupied by the setting, may have taken, or is taking place. We do this by first recording the details of any such alleged incident. This is carried out immediately by the Nursery Manager or whoever the Nursery Manager has appointed in charge in her absence. If the allegation is made against the Nursery Manager, the Chairperson or a suitably appointed Committee member will be required to immediately record details of the allegation.
- We refer any such complaint immediately to the local authority's social care department to investigate. We also report any such alleged incident to Ofsted and what measures we have taken. We are aware that it is an offence not to do this.
- We co-operate entirely with any investigation carried out by children's social care in conjunction with the police.
- Where the management committee and children's social care agree it is appropriate in the circumstances, the Chairperson will suspend the member of staff on full pay, or the volunteer, for the duration of the investigation. This is not an indication of admission that the alleged incident has taken place, but is to protect the staff as well as children and families throughout the process.

Disciplinary action

- Where a member of staff or volunteer has been dismissed due to engaging in activities that caused concern for the safeguarding of children or vulnerable adults, we will notify the Independent Safeguarding Authority (ISA) of relevant information so that individuals who pose a threat to children (and vulnerable groups), can be identified and barred from working with these groups.
- Please see high risk and emergency safeguarding issues for breakdown of abuse.

Key commitment 3

Hook Village Nursery is committed to promoting awareness of child abuse issues throughout its training and learning programmes for adults. It is also committed to empowering young children, through its early childhood curriculum, promoting their right to be strong, resilient and listened to.

Training and Good Practice

- We seek out training opportunities for all adults involved in the setting to ensure that they are able to recognise the signs and signals of possible physical abuse, emotional abuse, sexual abuse and neglect and that they are aware of the local authority guidelines for making referrals.
- We ensure the designated person receive training in accordance with that recommended by the Hampshire Safeguarding Children Partnership.
- We ensure that all staff know the procedures for reporting and recording their concerns in the setting.
- Qualified DBS and CRB disclosed members of the Nursery are the only members of staff allowed to take a child to the toilet. No adult, other than appointed individuals, will be allowed either to take a child to the toilet or be left alone with them.
- Children will be encouraged to develop a sense of autonomy and independence through adult support in making choices and learning ways to express their own feelings. This will enable children to have the self-confidence and the vocabulary to resist/reject inappropriate approaches.

Planning

- The layout of the rooms allows for constant supervision. No child is left alone with staff or volunteers in a one-to-one situation without being visible to others.

Curriculum

- We introduce key elements of keeping children safe into our programme to promote the personal, social and emotional development of all children so that they may grow to *be strong, resilient and listened to* and that they develop an understanding of why and how to keep safe.
- We create within the setting a culture of value and respect for the individual, having positive regard for children's heritage arising from their colour, ethnicity, languages spoken at home, cultural and social background.
- We ensure that this is carried out in a way that is developmentally appropriate for the children.

Confidentiality

- All suspicions and investigations are kept confidential and shared only with those who need to know. The people most commonly involved will be the member of staff/key person, Nursery Manager and the Chairperson. Any information is shared under the guidance of the Hampshire Safeguarding Children Partnership.

Support to families

- We believe in building trusting and supportive relationships with families, staff and volunteers in the Nursery.
- We make clear to parents our role and responsibilities in relation to child protection. This includes the reporting of concerns, providing information, monitoring of the child, and liaising at all times with the local children's services care team.
- We will continue to welcome the child and the family whilst investigations are being made in relation to any alleged abuse.
- We follow the Child Protection Plan, as set by the child's social care worker, in relation to the setting's designated role and tasks in supporting that child and their family, subsequent to any investigation.
- Confidential records kept on a child are shared with the child's parents or those who have parental responsibility for the child in accordance with the Confidentiality and Client Access to Records procedure, and only if appropriate under the guidance of the Hampshire Safeguarding Children Partnership.

High risk and emerging safeguarding issues

Contextual Safeguarding

All staff should be aware that safeguarding incidents and/or behaviours can be associated with factors outside the nursery and/or can occur between children outside of nursery. All staff, but especially the designated and deputy safeguarding leads should consider whether children are at risk of abuse or exploitation in situations outside their families.

Risk and harm outside of the family can take a variety of different forms and children can be vulnerable to sexual exploitation, criminal exploitation, and serious youth violence in addition to other risks.

For us as a nursery, we will consider the various factors that have an interplay with the life of any child about whom we have concerns within the nursery and the level of influence that these factors have on their ability to be protected and remain free from harm particularly when it comes to child exploitation or criminal activity.

What life is like for a child outside the nursery, within the home, within the family and within the community are key considerations when the DSL is looking at any concerns.

Preventing Radicalisation and Extremism

The prevent duty requires that all staff are aware of the signs that a child may be vulnerable to radicalisation. The risks will need to be considered for political, environmental, animal rights, or faith based extremism that may lead to a child becoming radicalised. All staff have received prevent WRAP training/undertaken e-learning/received awareness training in order that they can identify the signs of children being radicalised.

There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology. Background factors combined with specific influences such as family and friends may contribute to a child's vulnerability. Similarly, radicalisation can occur through many different methods, such as social media or the internet, and at different settings.

As part of the preventative process resilience to radicalisation will be built through the promotion of fundamental British values through the curriculum.

Any child who is considered vulnerable to radicalisation will be referred by the DSL to Hampshire children's social care, where the concerns will be considered in the MASH process. If the police prevent officer considers the information to be indicating a level of risk a "channel panel" will be convened and the school will attend and support this process.

Gender based violence / Violence against women and girls

<https://www.gov.uk/government/policies/violence-against-women-and-girls>

The government has a strategy looking at specific issues faced by women and girls. Within the context of this safeguarding policy the following sections are how we respond to violence against girls: female genital mutilation, forced marriage, honour-based violence and teenage relationship abuse all fall under this strategy.

Female Genital Mutilation (FGM)

FGM comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs for non-medical reasons. It has no health benefits and harms girls and women in many ways. It involves removing and damaging healthy and normal female genital tissue, and hence interferes with the natural function of girls' and women's bodies.

The age at which girls undergo FGM varies enormously according to the community. The procedure may be carried out when the girl is newborn, during childhood or adolescence, just before marriage or during the first pregnancy. However, the majority of cases of FGM are thought to take place between the ages of 5 and 8 and therefore girls within that age bracket are at a higher risk.

FGM is illegal in the UK.

On the 31 October 2015, it became mandatory for staff to report known cases of FGM to the police. 'Known' cases are those where either a girl informs the person that an act of FGM – however described – has been carried out on her, or where the person observes physical signs on a girl appearing to show that an act of FGM has been carried out and the person has no reason to believe that the act was, or was part of, a surgical operation within section 1(2)(a) or (b) of the FGM Act. In these situations, the DSL and/or headteacher will be informed and the member of teaching staff must call the police to report suspicion that FGM has happened.

At no time will staff examine pupils to confirm concerns

For cases where it is believed that a girl may be vulnerable to FGM or there is a concern that she may be about to be genitally mutilated, the staff will inform the DSL who will report it as with any other child protection concern.

While FGM has a specific definition, there are other abusive cultural practices which can be considered harmful to women and girls. Breast ironing is one of five UN defined 'forgotten crimes against women'. It is a practice whereby the breasts of girls typically aged 8-16 are pounded using tools such as spatulas, grinding stones, hot stones, and hammers to delay the appearance of puberty. This practice is considered to be abusive and should be referred to children's social care.

Honour-Based Abuse

Honour-based abuse refers to a violent crime or incident which may have been committed to protect or defend the honour of the family or community.

It is often linked to family or community members who believe someone has brought shame to their family or community by doing something that is not in keeping with their unwritten rule of conduct. For example, honour-based abuse might be committed against people who:

- become involved with a boyfriend or girlfriend from a different culture or religion
- want to get out of an arranged marriage
- want to get out of a forced marriage
- wear clothes or take part in activities that might not be considered traditional within a particular culture
- convert to a different faith from the family
- are exploring their sexuality or identity

Women and girls are the most common victims of honour-based abuse however, it can also affect men and boys. Crimes of 'honour' do not always include violence. Crimes committed in the name of 'honour' might include:

- domestic abuse
- threats of violence
- sexual or psychological abuse
- forced marriage
- being held against your will or taken somewhere you don't want to go
- assault

All forms of honour-based abuse are abusive (regardless of the motivation) and should be handled and escalated as such. If staff believe that a pupil is at risk from honour based abuse, they will report to the DSL who will follow the usual safeguarding referral process; however, if it is clear that a crime has been committed or the pupil is at immediate risk, the police will be contacted in the first instance. It is important that, if honour based abuse is known or suspected, communities and family members are NOT spoken to prior to referral to the police or social care as this could increase risk to the child.

Upskirting

In 2019 the Voyeurism Offences Act came into force and made the practice of upskirting illegal.

Upskirting is defined as someone taking a picture under another person's clothing without their knowledge, with the intention of viewing their genitals or buttocks, with or without underwear. The intent of upskirting is to gain sexual gratification or to cause the victim humiliation, distress or alarm. It is a criminal offence. Anyone of any gender, can be a victim.

If staff become aware that upskirting has occurred, this will be treated as a sexual offence and reported accordingly to the DSL and onwards to the police.

Behaviours that would be considered as sexual harassment which may be pre-cursors to upskirting, such as the use of reflective surfaces or mirrors to view underwear or genitals, will not be tolerated and the school will respond to these with appropriate disciplinary action and education.

Pupils who place themselves in positions that could allow them to view underwear, genitals or buttocks, will be moved on. Repeat offenders will be disciplined. These locations could include stairwells, under upper floor walkways, outside changing areas and toilets or sitting on the floor or laying down in corridors.

If technology that is designed for covert placement and could be used to take upskirting or indecent images is discovered in the school, it will be confiscated. If the technology is in location and potentially may have captured images, this will be reported to the police and left in situ so that appropriate forensic measures may be taken to gather evidence.

Any confiscated technology will be passed to the headteacher to make a decision about what happens to the items. This will be carried out under the principles set out in the government guidance on searching, screening and confiscation

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/674416/Searching_screening_and_confiscation.pdf

If the image is taken on a mobile phone, the phone will be confiscated under the same principles. This may need to be passed to the police for them to investigate, if there is evidence that a crime has been committed.

The Trigger Trio

The term 'Trigger Trio' has replaced the previous phrase 'Toxic Trio' which was used to describe the issues of domestic violence, mental ill-health and substance misuse which have been identified as common features of families where harm to adults and children has occurred.

The above are viewed as indicators of increased risk of harm to children and young people. In an analysis of Serious Cases Reviews undertaken by Ofsted in 2011, they found that in nearly 75% of these cases two or more of the issues were present.

These factors will have a contextual impact on the safeguarding of children and young people.

Domestic Abuse

Domestic abuse is any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over who are or have been intimate partners or family members regardless of gender or sexuality. This can encompass, but is not limited to, the following types of abuse:

- Psychological
- Physical
- Sexual
- Financial
- Emotional.

Controlling behaviour is a range of acts designed to make a person subordinate and/or dependent by isolating them from sources of support, exploiting their resources and capacities for personal gain, depriving them of the means needed for independence, resistance and escape and regulating their everyday behaviour.

Coercive behaviour is an act or a pattern of acts of assault, threats, humiliation and intimidation or other abuse that is used to harm, punish, or frighten their victim.

Research indicates that living within a home where domestic abuse takes place is harmful to children and can have a serious impact on their behaviour, wellbeing and understanding of what constitutes a normal relationship.

Children witnessing domestic abuse is recognised as 'significant harm' and are victims of abuse themselves in law. These children may become aggressive; display anti-social behaviours; suffer from depression or anxiety; or fail to reach their educational potential.

Indicators that a child is living within a relationship with domestic abuse may include:

- being withdrawn
- suddenly behaving differently
- anxiety
- being clingy
- depression
- aggression
- problems sleeping
- eating disorders
- bed wetting
- soiling clothes
- excessive risk taking
- missing school
- changes in eating habits
- obsessive behaviour
- experiencing nightmares
- taking drugs
- use of alcohol
- self-harm
- thoughts about suicide

These behaviours themselves do not indicate that a child is living with domestic abuse but should be considered as indicators that this may be the case.

If staff believe that a child is living with domestic abuse, this will be reported to the DSL for referral, to be considered by children's social care.

Parental mental health

The term 'mental ill health' is used to cover a wide range of conditions, from eating disorders, mild depression and anxiety to psychotic illnesses such as schizophrenia or bipolar disorder. Parental mental illness does not necessarily have an adverse impact on a child's developmental needs, but it is essential to always assess its implications for each child in the family. It is essential that the diagnosis of a parent's/carer's mental health is not seen as defining the level of risk. Similarly, the absence of a diagnosis does not equate to there being little or no risk.

For children, the impact of poor parental mental health can include:

- The parent's/carer's needs or illnesses taking precedence over the child's needs
- The child's physical and emotional needs being neglected
- The child acting as a young carer for a parent or a sibling
- The child having restricted social and recreational activities
- The child finding it difficult to concentrate, potentially having an impact on educational achievement
- The child missing school regularly as (s)he is being kept home as a companion for a parent/carer
- The child adopting paranoid or suspicious behaviour as they believe their parent's delusions
- Witnessing self-harming behaviour and suicide attempts (including attempts that involve the child)
- Obsessional compulsive behaviours involving the child.

If staff become aware of any of the above indicators, or others that suggest a child is suffering due to parental mental health, the information will be shared with the DSL to consider a referral to children's social care.

Parental Substance misuse

Substance misuse applies to the misuse of alcohol as well as 'problem drug use', defined by the Advisory Council on the Misuse of Drugs as drug use which has: 'serious negative consequences of a physical, psychological, social and interpersonal, financial or legal nature for users and those around them.

Parental substance misuse of drugs or alcohol becomes relevant to child protection when substance misuse and personal circumstances indicate that their parenting capacity is likely to be seriously impaired or that undue caring responsibilities are likely to be falling on a child in the family.

For children, the impact of parental substance misuse can include:

- Inadequate food, heat and clothing for children (family finances used to fund adult's dependency)
- Lack of engagement or interest from parents in their development, education or wellbeing
- Behavioural difficulties- inappropriate display of sexual and/or aggressive behaviour
- Bullying (including due to poor physical appearance)
- Isolation – finding it hard to socialise, make friends or invite them home
- Tiredness or lack of concentration
- Child talking of or bringing into school drugs or related paraphernalia
- Injuries /accidents (due to inadequate adult supervision)
- Taking on a caring role
- Continued poor academic performance including difficulties completing homework on time
- Poor attendance or late arrival.

These behaviours themselves do not indicate that a child's parent is misusing substances but should be considered as indicators that this may be the case.

If staff believe that a child is living with parental substance misuse, this will be reported to the designated safeguarding lead for referral to children's social care to be considered.

Missing, Exploited and Trafficked Children (MET)

Within Hampshire, the acronym MET is used to identify all children who are missing; believed to be at

risk of or being exploited; or who are at risk of or are being trafficked. Given the close links between all these issues, there has been a considered response to view them as potentially linked, so that cross over of risk is not missed.

Children Missing from Education

Patterns of children missing education can be an indicator of either abuse or safeguarding risks. A relatively short length of time a child is missing does not reduce risk of harm to that child, and all absence or non-attendance should be considered with other known factors or concerns.

DSL's and staff should consider:

Missing sessions: Are there patterns in the sessions that are being missed?

- Is the child being exploited during this time?
- Are they late because of a caring responsibility?
- Have they been directly or indirectly affected by substance misuse?
- Is the session being missed one that would cause bruising or injuries to become visible?

Single missing days: Is there a pattern in the day missed? Is it before or after the weekend suggesting the child is away from the area? Are there specific sessions or members of staff on these days? Is the parent informing the nursery of the absence on the day?

- Is the child being sexually exploited during this day?
- Do the parents appear to be aware and are they condoning the behaviour?

Continuous missing days: Has the nursery been able to make contact with the parent? Is medical evidence being provided? Are siblings attending nursery (either our or local schools)?

- Did we have any concerns about radicalisation, FGM, forced marriage, honour- based violence, sexual exploitation?
- Have we had any concerns about physical or sexual abuse?
- Does the parent have any known medical needs? Is the child safe?

The nursery will view absence as both a safeguarding issue and an educational outcomes issue. The nursery may take steps that could result in legal action for attendance, or a referral to children's social care, or both.

Children Missing from Home or Care

It is known that children who go missing are at risk of suffering significant harm, and there are specific risks around children running away and the risk of sexual exploitation.

The Hampshire Police Force, as the lead agency for investigating and finding missing children, will respond to children going missing based on on-going risk assessments in line with current guidance.

The police definition of 'missing' is: "Anyone whose whereabouts cannot be established will be considered as missing until located, and their well-being or otherwise confirmed."

Various categories of risk should be considered and Hampshire Local Safeguarding Children's Partnership provides further guidance:

Local authorities have safeguarding duties in relation to children missing from home and should work with the police to risk assess and analyse data for patterns that indicate particular concerns and risks.

The police will prioritise all incidents of missing children as medium or high risk. Where a child is recorded as being absent, the details will be recorded by the police, who will also agree review times and any on-going actions with person reporting.

A missing child incident would be prioritised as 'high risk' where:

- the risk posed is immediate and there are substantial grounds for believing that the child is in danger through their own vulnerability; or
- the child may have been the victim of a serious crime; or
- the risk posed is immediate and there are substantial grounds for believing that the public is in danger.

The high-risk category requires the immediate deployment of police resources.

Authorities need to be alert to the risk of sexual exploitation or involvement in drugs, gangs or criminal activity, trafficking and aware of local "hot spots" as well as concerns about any individuals with whom children runaway.

Child protection procedures must be initiated in collaboration with children's social care services whenever there are concerns that a child who is missing may be suffering, or likely to suffer, significant harm.

Within any case of children who are missing both push and pull factors will need to be considered

Push factors include:

- Conflict with parents/carers
- Feeling powerless
- Being bullied/abused
- Being unhappy/not being listened to
- The Trigger Trio
-

Pull factors include:

- Wanting to be with family/friends
- Drugs, money and any exchangeable item
- Peer pressure
- For those who have been trafficked into the United Kingdom as unaccompanied asylum-seeking children, there will be pressure to make contact with their trafficker.

We will inform all parents of children who are absent (unless the parent has informed us). If the parent is also unaware of the location of their child, and the definition of missing is met, we will either support the parent to contact the police to inform them or do so ourselves with urgency.

Child Sexual Exploitation (CSE)

Child sexual exploitation is a form of child sexual abuse. It occurs when an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology. CSE can affect any child or young person (male or female) under the age of 18 years, including 16- and 17-year olds who can legally consent to have sex. It can include both contact (penetrative and non-penetrative acts) and non-contact sexual activity and may occur without the child or young person's immediate knowledge (e.g. through others copying videos or images they have created and posted on social media). (definition from KCSiE 2020)

- Exploitation can be isolated (one-on-one) or organised group/criminal activity
- There can be a big age gap between victim and perpetrator, but it can also be peer-on-peer
- Boys can be targeted just as easily as girls – this is not gender specific
- Perpetrators can be women and not just men
- Exploitation can be between males and females or between the same genders
- Children with learning difficulties can be particularly vulnerable to exploitation as can children from particular groups, e.g. looked after children, young carers, children who have a history of physical, sexual emotional abuse or neglect or mental health problems; children who use drugs or alcohol, children who go missing from home or school, children involved in crime, children with parents/carers who have mental health problems, learning difficulties/other issues, children who associate with other children involved in exploitation. However, it is important to recognise that any child can be targeted

Indicators a child may be at risk of CSE include:

- going missing for periods of time or regularly coming home late;
- regularly missing school or education or not taking part in education;
- appearing with unexplained gifts or new possessions;
- associating with other young people involved in exploitation;
- having older boyfriends or girlfriends;

- suffering from sexually transmitted infections or becomes pregnant;
- mood swings or changes in emotional wellbeing;
- drug and alcohol misuse;
- displaying inappropriate sexualised behaviour.

CSE can happen to a child of any age, gender, ability or social status. Often the victim of CSE is not aware that they are being exploited and do not see themselves as a victim.

We educate all staff in the signs and indicators of sexual exploitation. We use the child exploitation risk assessment form (CERAF) and associated guidance from the Hampshire Safeguarding Children Partnership to identify pupils who are at risk; the DSL will share this information as appropriate with children's social care.

We recognise that we may have information or intelligence that could be used to both protect children and prevent risk. Any relevant information that we have will be shared on the community partnership information (CPI) form which can be downloaded from <https://www.safe4me.co.uk/portfolio/sharing-information/>

Child Criminal Exploitation (including county lines)

Child Criminal Exploitation (CCE) is defined as:- 'where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child or young person under the age of 18 into any criminal activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial or other advantage of the perpetrator or facilitator and/or (c) through violence or threat of violence. The victim may have been criminally exploited even if the activity appears consensual. Child Criminal Exploitation does not always involve physical contact, it can occur through the use of technology'

The exploitation of children and young people for crime is not a new phenomenon as evidenced by Fagan's gang in Charles Dickens book, Oliver Twist. Children under the age of criminal responsibility, or young people who have increased vulnerability due to push:pull factors who are manipulated, coerced or forced into criminal activity provide opportunity for criminals to distance themselves from crime.

A current trend in criminal exploitation of children and young people is 'county lines' which refer to a 'phone line through which drug deals can be made. An order is placed on the number and typically a young person will deliver the drugs to the specified address and collect the money for the deal. These lines are owned and managed by

organised crime gangs, often from larger cities, who are expanding their markets into rural areas. Children are often recruited to move drugs and money between locations and are known to be exposed to techniques such as 'plugging', where drugs are concealed internally to avoid detection. Children can easily become trapped by this type of exploitation, as county lines gangs create drug debts and can threaten serious violence and kidnap towards victims (and their families) if they attempt to leave the county lines network.

Indicators that a child may be criminally exploited include:

- Increase in Missing episodes – particular key as children can be missing for days and drug run in other counties
- Having unexplained amounts of money, new high cost items and multiple mobile phones
- Increased social media and phone/text use, almost always secretly
- Older males in particular seen to be hanging around and driving
- Having injuries that are unexplained and being unwilling to have them looked at

- Increase in aggression, violence and fighting
- Carrying weapons – knives, baseball bats, hammers, acid
- Travel receipts that are unexplained
- Significant missing from education and disengaging from previous positive peer groups
- Association with other young people involved in exploitation
- Children who misuse drugs and alcohol
- Parent concerns and significant changes in behaviour that affect emotional wellbeing

We will treat any child who may be criminally exploited as a victim in the first instance and using the CERAF form and guidance in our referral to children's social care. If a referral to the police is also required, as crimes have been committed on the nursery premises, these will also be made.

If there is information or intelligence about child criminal exploitation, we will report this to the police via the community partnership information form. <https://www.safe4me.co.uk/portfolio/sharing-information/>

Serious Violence

Serious violence is becoming a factor for those who are involved in criminal exploitation. It can also be an indication of gang involvement and criminal activity.

All staff will be made aware of indicators, which may signal that pupils, or members of their families, are at risk from or involved with serious violent crime.

These indications can include but are not limited to: increased absence from nursery; a change in friendships or relationships with older individuals or groups; a significant decline in performance; signs of self-harm; significant change in wellbeing; signs of assault; unexplained injuries; unexplained gifts and/or new possessions; possession of weapons.

We have a duty to not only prevent the individual from engaging in criminal activity, but also to safeguard others who may be harmed by their actions.

We will report concerns of serious violence to police and social care.

If there is information or intelligence about potential serious violence, we will report this to the police via the community partnership information form. <https://www.safe4me.co.uk/portfolio/sharing-information/>

Trafficked Children and modern slavery

Human trafficking is defined by the UNHCR in respect of children as a process that is a combination of:

- Movement (including within the UK)
- Control, through harm / threat of harm or fraud
- For the purpose of exploitation

Any child transported for exploitative reasons is considered to be a trafficking victim.

There is significant evidence that children (both of UK and other citizenship) are being trafficked internally within the UK and this is regarded as a more common form of trafficking in the UK.

There are a number of indicators which suggest that a child may have been

trafficked into the UK, and may still be controlled by the traffickers or receiving

adults. These are as follows:

- Shows signs of physical or sexual abuse, and/or has contracted a sexually transmitted infection or has an unwanted pregnancy
- Has a history of going missing and unexplained moves

- Is required to earn a minimum amount of money every day
- Works in various locations
- Has limited freedom of movement
- Appears to be missing for periods
- Is known to beg for money
- Is being cared for by adult/s who are not their parents and the quality of the relationship between the child and their adult carers is not good
- Is one among a number of unrelated children found at one address
- Has not been registered with or attended a GP practice
- Is excessively afraid of being deported.

For those children who are internally trafficked within the UK indicators include:

- Physical symptoms (bruising indicating either physical or sexual assault)
- Prevalence of a sexually transmitted infection or unwanted pregnancy
- Reports from reliable sources suggesting the likelihood of involvement in sexual exploitation/the child has been seen in places known to be used for sexual exploitation
- Evidence of drug, alcohol or substance misuse
- Being in the community in clothing unusual for a child i.e. inappropriate for age, or borrowing clothing from older people
- Relationship with a significantly older partner
- Accounts of social activities, expensive clothes, mobile phones or other possessions with no plausible explanation of the source of necessary funding
- Persistently missing, staying out overnight or returning late with no plausible explanation
- Returning after having been missing, looking well cared for despite having not been at home
- Having keys to premises other than those known about
- Low self- image, low self-esteem, self-harming behaviour including cutting, overdosing, eating disorder, promiscuity
- Truancy / disengagement with education
- Entering or leaving vehicles driven by unknown adults
- Going missing and being found in areas where the child or young person has no known links; and/or
- Possible inappropriate use of the internet and forming on-line relationships, particularly with adults.

These behaviours themselves do not indicate that a child is being trafficked but should be considered as indicators that this may be the case.

When considering modern slavery, there is a perception that this is taking place overseas. The government estimates that tens of thousands of slaves are in the UK today.

Young people being forced to work in restaurants, nail bars, car washes and harvesting fruit, vegetables or other foods may have all been slaves 'hiding in plain sight' within the U.K and rescued from slavery. Other forms of slavery such as sex slaves or household slaves are more hidden but have also been rescued within the UK.

If staff believe that a child is being trafficked or is a slave, this will be reported to the designated safeguarding lead for referral to be considered to children's social care.

Technologies

Technological hardware and software is developing continuously with an increase in functionality of devices that people use. The majority of children use online tools to communicate with others locally, nationally and internationally. Access to the Internet and other tools that technology provides is an invaluable way of finding, sharing and communicating information. While technology itself is not harmful, it can be used by others to make children vulnerable and to abuse them.

Online Safety and Social Media

With the current speed of on-line change, some parents and carers have only a limited understanding of online risks and issues. Parents may underestimate how often their children come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond. Some of the risks could be:

- unwanted contact
 - grooming
 - online bullying including sexting
 - digital footprint
-
- The nursery will therefore seek to provide information and awareness to both children and their parents through:
Information included in social media
 - Parents meetings

Gaming

Online gaming is an activity in which the majority of children and many adults get involved. The nursery will raise awareness:

- By talking to parents and carers about the games their children play and help them identify whether they are appropriate
- By supporting parents in identifying the most effective way to safeguard their children by using parental controls and child safety mode
- By talking to parents about setting boundaries and time limits when games are played
- By highlighting relevant resources.

Safeguarding issues relating to individual childrens needs

Homelessness

We recognise that being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The impact of losing a place of safety and security can affect a child's behaviour and attachments.

In line with the Homelessness Reduction Act 2017, this nursery will promote links into the Local Housing Authority for the parent or care giver in order to raise/progress concerns at the earliest opportunity.

We recognises that whilst referrals and/or discussion with the Local Housing Authority should be progressed as appropriate, this does not, and should not, replace a referral into children's social care where a child has been harmed or is at risk of harm.

Children & the Court System

We recognise that children are sometimes required to give evidence in criminal courts, either for crimes committed against them or for crimes they have witnessed. We know that this can be a stressful experience and therefore the nursery will aim to support children through this process.

Along with pastoral support, the nursery will use age-appropriate materials published by HM Courts and Tribunals Services (2017) that explain to children what it means to be a witness, how to give evidence and the help they can access.

We recognise that making child arrangements via the family courts following separation can be stressful and entrench conflict in families. This can be stressful for children. This school will support children going through this process.

Alongside pastoral support this school will use online materials published by The Ministry of Justice (2018) which offers children information & advice on the dispute resolution service.

These materials will also be offered to parents and carers if appropriate.

Children with family members in prison

Children who have a family member in prison are at greater risk of poor outcomes including poverty, stigma, isolation and poor mental health.

This nursery aims to:

- understand and respect the child's wishes

We will respect the child's wishes about sharing information. If other children become aware, the nursery will be vigilante to potential bullying or harassment

- keep as much contact as possible with the parent/caregiver

We will maintain good links with the remaining caregiver in order to foresee and manage any developing problems. Following discussions, we will develop appropriate systems for keeping the imprisoned caregiver updates about their child's education.

- be sensitive in sessions

This nursery will consider the needs of any child with an imprisoned parent/caregiver during session planning.

- Provide extra support

We recognise that having a parent in prison can attach a real stigma to a child, particularly if the crime is known and serious. We will provide support and mentoring to help a child work through their feelings on the issue.

Alongside pastoral care the nursery will use the resources provided by the National Information Centre on Children of Offender in order to support and mentor children in these circumstances.

Pupils with medical conditions (in nursery)

See Managing Children with Allergies or who are sick or Infectious.

We will make ensure that sufficient staff are trained to support any child with a medical condition.

All relevant staff will be made aware of the condition to support the child and be aware of medical needs and risks to the child.

An individual healthcare plan may be put in place to support the child and their medical needs.

Pupils with medical conditions (out of nursery)

There will be occasions when children are temporarily unable to attend our nursery on a full-time basis because of their medical needs. These children and young people are likely to be:

- children and young people suffering from long-term illnesses
- children and young people with long-term post-operative or post-injury recovery periods
- children and young people with long-term mental health problems (emotionally vulnerable).

Where it is clear that an absence will be for more than 15 continuous nursery days, the Education and Inclusion branch of Children Services will be contacted to advise on the pupil's education.

Special educational needs and disabilities

Children who have special educational needs and/or disabilities can have additional vulnerabilities when recognising abuse and neglect. These can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration
- The potential for a disproportionate impact on children with SEND, for example by behaviours such as bullying, without outwardly showing any signs
- Communication barriers and difficulties in overcoming these barriers
- Having fewer outside contacts than other children
- Receiving intimate care from a considerable number of carers, which may increase the risk of exposure to abusive behaviour and make it more difficult to set and maintain physical boundaries
- Having an impaired capacity to resist or avoid abuse
- Having communication difficulties that may make it difficult to tell others what is happening
- Being inhibited about complaining for fear of losing services
- Being especially vulnerable to bullying and intimidation
- Being more vulnerable than other children to abuse by their peers.

We will respond to this by:

- Making it common practice to enable disabled children to make their wishes and feelings known in respect of their care and treatment
- Ensuring disabled children receive appropriate personal, health and social education (including sex education)
- Ensuring disabled children know how to raise concerns and give them access to a range of adults with whom they can communicate. This could mean using interpreters and facilitators who are skilled in using the child's preferred method of communication
- Recognising and utilising key sources of support including staff in nursery, friends and family members where appropriate
- Developing the safe support services that families want, and a culture of openness and joint working with parents and carers on the part of services
- Ensuring that guidance on good practice is in place and being followed in relation to: intimate care; working with children of the opposite sex; managing behaviour that challenges families and services; issues around consent to treatment; anti-bullying and inclusion strategies; sexuality and safe sexual behaviour among young people; monitoring and challenging placement arrangements for young people living away from home.

Fabricated or induced illness

There are three main ways that a parent/carer could fabricate or induce illness in a child. These are not mutually exclusive and include:

- fabrication of signs and symptoms. This may include fabrication of past medical history
- fabrication of signs and symptoms and falsification of hospital charts and records, and specimens of bodily fluids. This may also include falsification of letters and documents
- induction of illness by a variety of means.

If we are concerned that a child may be suffering from fabricated or induced illness, we will inform children's social care.

Mental Health

Early Years Practitioners see their children day in, day out. They know them well and are well placed to spot changes in behaviour that might indicate an emerging problem with the mental health and emotional wellbeing of children. All staff should also be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

The balance between the risk and protective factors is most likely to be disrupted when difficult events happen in pupils' lives. These include:

- loss or separation – resulting from death, parental separation, divorce, hospitalisation, loss of friendships (especially in adolescence), family conflict or breakdown that results in the child having to live elsewhere, being taken into care or adopted

Oral Health

We promote healthy eating and drinking and offer health snacks at our snack times with water or milk, we encourage healthy foods and drink within children's lunch boxes and give advice to parents when needed. Water only is drunk throughout the day and children bring water in their bottles for this or we supply cups of water.

We discourage use of dummies in our setting by not allowing them into our setting and work with parents to provide information on how to help children give up their dummies.

Other safeguarding issues that may potentially have an impact on children

Prejudice-based abuse

Prejudice-based abuse or hate crime is any criminal offence which is perceived by the victim or any other person to be motivated by a hostility or prejudice-based on a person's real or perceived:

- Disability
- Race
- Religion
- Gender identity
- Sexual orientation

Although this sort of crime is collectively known as 'Hate Crime' the offender does not have to go as far as being motivated by 'hate', they only have to exhibit 'hostility'.

This can be evidenced by:

- threatened or actual physical assault
- derogatory name calling, insults, for example racist jokes or homophobic language
- provocative behaviour e.g. wearing of badges or symbols belonging to known right wing, or extremist organisations
- distributing literature that may be offensive in relation to a protected characteristic
- verbal abuse
- inciting hatred or bullying against children who share a protected characteristic
- prejudiced or hostile comments in the course of discussions within sessions
- teasing in relation to any protected characteristic e.g. sexuality, language, religion or cultural background
- refusal to co-operate with others because of their protected characteristic, whether real or perceived
- expressions of prejudice calculated to offend or influence the behaviour of others
- attempts to recruit other pupils to organisations and groups that sanction violence, terrorism or hatred.

We will respond by:

- clearly identifying prejudice-based incidents and hate crimes and monitor the frequency and nature of them within the nursery
- taking preventative action to reduce the likelihood of such incidents occurring
- recognising the wider implications of such incidents for the nursery and local community
- providing regular reports of these incidents to the Governing Body
- ensuring that staff are familiar with formal procedures for recording and dealing with prejudice-based incidents and hate crimes
- dealing with perpetrators of prejudice-based abuse effectively
- supporting victims of prejudice-based incidents and hate crimes
- ensuring that staff are familiar with a range of restorative practices to address bullying and prevent it happening again

Faith Abuse

The number of known cases of child abuse linked to accusations of 'possession' or 'witchcraft' is small, but children involved can suffer damage to their physical and mental health, their capacity to learn, their ability to form relationships and to their self-esteem.

Such abuse generally occurs when a carer views a child as being 'different', attributes this difference to the child being 'possessed' or involved in 'witchcraft' and attempts to exorcise him or her.

A child could be viewed as 'different' for a variety of reasons such as, disobedience; independence; bed-wetting; nightmares; illness; or disability. There is often a weak bond of attachment between the carer and the child.

There are various social reasons that make a child more vulnerable to an accusation of 'possession' or 'witchcraft'. These include family stress and/or a change in the family structure.

The attempt to 'exorcise' may involve severe beating, burning, starvation, cutting or stabbing and isolation, and usually occurs in the household where the child lives.

If the school becomes aware of a child who is being abused in this context, the DSL will follow the normal referral route to children's social care.

Private fostering

Private fostering is an arrangement by a child's parents for their child (under 16 or 18 if disabled) to be cared for by another adult who is not closely related and is not a legal guardian with parental responsibility, for 28 days or more.

It is not private fostering if the carer is a close relative to the child such as grandparent, brother, sister, uncle or aunt.

The Law requires that the carers and parents must notify the Children's Services Department of any private fostering arrangement.

If the school becomes aware that a pupil is being privately fostered, we will inform the Children's Services Department and inform both the parents and carers that we have done so.

Parenting

All parents will struggle with the behaviour of their child(ren) at some point. This does not make them poor parents or generate safeguarding concerns. Rather it provides them with opportunities to learn and develop new skills and approaches to deal with their child(ren).

Some children have medical conditions and/or needs e.g. Tourette's Syndrome, some conditions associated with autism or ADHD that have a direct impact on behaviour and can cause challenges for parents in dealing with behaviours. This does not highlight poor parenting either.

Parenting becomes a safeguarding concern when the repeated lack of supervision, boundaries, basic care or medical treatment places the child(ren) in situations of risk or harm.

In situations where parents struggle with tasks such as setting boundaries and providing appropriate supervision, timely interventions can make drastic changes to the wellbeing and life experiences of the child(ren) without the requirement for a social work assessment or plan being in place.

We will support parents in understanding the parenting role and providing them with strategies that may assist:

- providing details of community-based parenting courses
- linking to web-based parenting resources
- referring to the school parenting worker/home school link worker (where available)
- discussing the issue with the parent and supporting them in making their own plans of how to respond differently (using evidence-based parenting programmes)
- signposting to support services

Considering appropriate early help services

Off site visits

A particular strand of health and safety is looking at risks when undertaking off site visits. Some activities, especially those happening away from the nursery and can involve higher levels of risk. We complete risk assessment which helps colleagues in nursery to manage risks and support with off site visits and provides training in the management of groups during off site visits, as well as First Aid in an outdoor context. Please refer to the off-site activity policy/procedures.
